Mayor Boaz asked Lee Villaflor to update the council on what we had going on. Lee stated that when the storm came thru May 7th the water plant took a lightning strike. Some of our flow meters were damaged. We now have most of them up and working and should have all of them working by next week. This is covered by our insurance.

CDBG grant is on hold because of the route getting gas to our intake. A route to run natural gas to the river at the intake has been submitted. We are just waiting on TVA to approve it.
